Settings
Pressing the "Settings" will provide a list of choices:
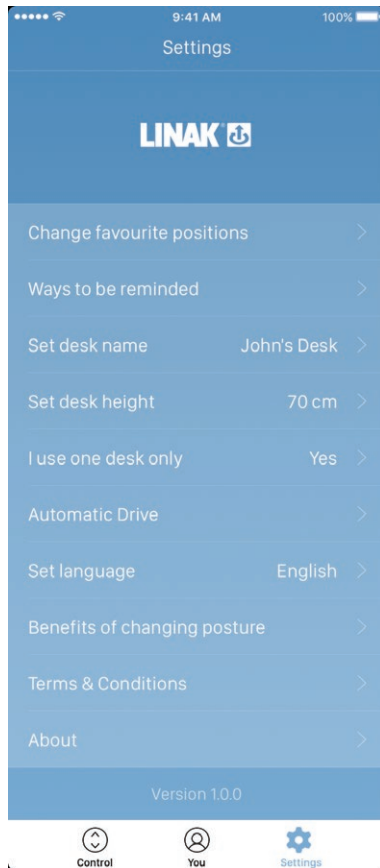

Change the favourite positions
The favourite positions are stored through the control page. If the user wants to change the height of the stored positions, it can be done through this menu.

Ways to be reminded
Enable or disable reminder notifications as pop-ups on computers and smartphones.
If supported by the connected product, e.g. the DPG1B, enable or disable the light strip as a reminder function.

Set desk name
Change the name of the connected product. The renaming will only affect the local name in the smartphone or computer - not in the DPG or Bluetooth® Adapter.

Set desk height
Set the current height of the desk. An illustration guides the user on how to measure. Choose in which units the height is shown: cm or inches.

I use one desk only

Choose between "Yes" or "No".

Yes: This is the only desk, you use and to which you connect your app. Your reminder and memory settings are stored in the DPG on the desk.

No: You connect to several desks. Your reminder and memory settings are stored on your smart device and when you connect to a desk, the settings will reflect in the DPG. When you are no longer connected, the DPG will go back to the settings it had before you connected after 2 hours.

Automatic drive
Enable automatic drive on memory positions. The user has to accept the terms in the pop-up notification before this feature can be enabled. This feature can only be enabled via this app and only when connected to *"full versions"* of the DPG1M/B/C and BLE2LIN, not the *"limited versions"*. An animation shows the user how this feature works.

Set language
Choose between 8 different languages in the app. This change does not affect the language in the display of a DPG1C.

Benefits of changing posture
An overview of some of the benefits by using a sit/stand desk and changing posture.

Terms & conditions
Terms & conditions for using the Desk Control™ app.
